

5-26-76 Collection of Guanine from 5-25-2

SAMPLE	{	5/25	first injection	:	50 μ l	full scale	X.0.02
		5/25	2 nd	:	100 μ l	" "	X.0.04
		5/26	3 rd	:	100 μ l	" "	X.0.04
		5/26	4 th	:	100 μ l	" "	X.0.04
		5/26	5 th	:	45 μ l	1/2 scale	X.0.02

Pooled fractions were stored in freezer.

Observation -

A peak was obs. on X.04 (~20 units) which obviously had been retained for a long time. This had no A_{365} and less A_{280} than A_{254} . It possibly could be adenine.
