

11-8-76

Preparative Run: Sample 10-26-2 = mother liquor
from 1st large prep run. (by Paul Douahue)

- sample was loaded + run in standard way.
- large peak obtained X1.0 = much larger than original prep run.

11-9-76

Preparative Run on Sample 11-7-4-J

This was mother liquor from which the 2nd large amount of crystalline adduct was obtained.

- got slightly smaller peak than yesterday
